

## Green Monster Mask

### Instructions

**1** Gather your supplies.

**2** Glue red Fuzzy Sticks around the eyes of a Plastic Mask. Use a strong craft glue or have an adult glue the Fuzzy Sticks using a hot glue gun.

**3** Cut green Fuzzy Sticks so that they hang slightly over the edges of the mask. Coil the ends to hide any sharp edges.

**4** Continue gluing Fuzzy Sticks in straight lines so that they completely cover the mask. Make a round, flat coil with a green Fuzzy Stick to add to the tip of the nose.

**5** Cut triangle pieces out of a green foam sheet for the ears and glue onto the back to the masks. Add a curvy black Fuzzy Stick down the center of the nose as a final accent.

Your Monster Mask is now complete!
